DETAILED ACTION

1. Applicants' Response to Office Action, received 13 June 2005, is acknowledged.
2. Claims 106-115 are pending and under consideration.

Rejections Maintained

3. The rejection of claims 106-115 under 35 U.S.C. 103(a) as being unpatentable over Kinet (U.S. Pat. No. 5,770,396) in view of Zuk et al (U.S. Pat. No. 4,208,479) is maintained for reasons of record.

Applicants argue that there is no motivation to make the suggested combination of the two references.

The examiner has considered applicants' argument, but does not find it persuasive for the reasoning put forth in the original rejection, i.e., it would have been obvious at the time the invention was made to a person having ordinary skill in the art to label the isolated receptor of Kinet in order to provide a reagent for immunoassay of human IgE.

Applicants argue that Zuk et al is not enabling for the labeling of immunoglobulin receptors. However, applicants do concede that Zuk et al provides the general idea of labeling receptors. Applicants argue that it is well appreciated in the art that a particular chemical treatment may have very different effects on two unrelated molecules. Thus, while Zuk et al does teach labeling of immunoglobulin proteins, they do not enable labeling of immunoglobulin receptor.

The examiner has considered applicants' argument, but does not find it persuasive for the reasoning put forth in the original rejection, i.e., Zuk et al teaches the general principles by which receptors may be labelled, a point that applicants concede. To date, applicants have provided no actual data that the labelling procedures of Zuk et al would alter the instantly

claimed receptor activity. In the absence of such evidence to the contrary, the labeling procedures which Zuk et al teach would label the instantly claim receptor without altering the activity of the receptor.

Conclusion

4. Claims 106-115 are finally rejected.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
